WELCOME TO THE MUSEUM...

There is a shepherd's cottage in the museum, with all the necessary equipment for processing milk into cheese, which was and is still used in our mountains.

The history of cheese development is presented on the panels, from difficult beginnings to the present day. Apart from the shepherd's cottage, the central part of the collection is also very interesting, as it represents a short film, where visitors get a clear view of work and life in the mountains. In addition to living in the mountains, the film also shows the processing of milk into all dairy products that are produced in the Planika Dairy today.

There is a small gift shop in the museum, offering souvenirs and useful cottage industry and, above all, you can purchase all the products of our Dairy.

We professionally guide all our visitors through the museum. At the request of pre-announced groups, we also prepare a tasting of our products, pastoral snack or shepherd's lunch. We organise team-building events with milking our wooden cow Cika.

We prepare Shepherd's snack or Shepherd's lunch uniformly for a whole group of at least 20 guests. **A catering company prepares our meals and we therefore need to know the selected menu and the exact number of meals a few days before your arrival, since we will order and charge you as many meals as you order.**

Guides and accompanying drivers have free access to the museum, but they have to pay for lunch or snack.

If you have any additional questions, we will be happy to provide you with answers.

Welcome and have a nice meal.

MUZEUM COLLECTION FROM PASTURE TO PLANIKA DAIRY

In the Planika Dairy we have, together with the Tolmin Museum, set a historical and ethnological collection OD PLANINE DO PLANIKE (from Pasture to Planika Dairy), where the heritage of mountain pastures and the development of cheese is presented, based on which today's Planika Dairy was created. Our aim was to present pasture and cheese to the wider public, and we also wanted to show processing of milk into cheeses and other dairy products in today's Planika Dairy.
